Description

The 5-wire cage on the **9" Heavy-Duty Roller Frame** helps make sure your roller cover does not walk or slip as your work. The molded handle's metal-reinforced end accepts standard extension poles.

Features:

- 5/16-gauge steel construction for professional-quality durability
- Use with standard 9" roller covers
- 5-wire roller cage for a secure grip on the roller cover to help minimize walking
- Metal-reinforced, threaded end accepts standard extension poles
- Molded handle offers comfort and excellent control
