Recommendations

We strongly recommend the use of the 2 component system:

Monocoat Natural Oil Plus 2C - Parts A & B.

The oil will cure in 7 days.

The floor, fixture, or furniture is useable after 24 hours and can be cleaned with liquids within a week.

There is much less chance of spotting, scuffing, etc. during the cure period, because curing is 7 days as opposed to 21 days.

Curing Time Comparison:

* Part A without accelerator part B	24 hours	10%
	48 hours	20%
	1 week	40%
	3 weeks	100%
* 2C - Part A and B combined	24 hours	60%
	48 hours	80%
	1 week	100%
